Twisti Pack®

The absorbent recycling pack

Range

PelicanPack®
 The oil absorbent recycling pack

4 good reasons for choosing

1 EFFICIENT

8 TIMES MORE EFFICIENT

- Fibercan® absorbs 8 times more than conventional absorbent materials
- Instantaneous absorption
- No more oily film: safe and dry floors
- Upon saturation, the absorbent powder combines to form lumps

2 ECO-FRIENDLY RECYCLABLE AND REUSABLE

- A natural, cotton fibre-based absorbent material
- Renewable and biodegradable
- Reusable: produces 8 times less waste
- Captures hydrocarbons and prevents infiltration into the ground

8 TIMES MORE EFFICIENT

RECYCLABLE AND REUSABLE

QUICK AND EASY

REDUCES WASTE

4 EASY TO USE

QUICK AND EASY

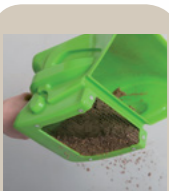

- Compact, it is the ideal intervention kit
- All-in-one system: storage, distribution and recovery of Fibercan®
- Twisti Pack® provides all the tools you need for efficient operation

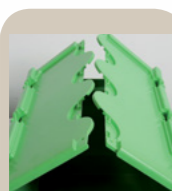

3 MONEY-SAVER

REDUCES WASTE

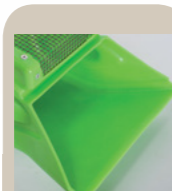

- High-efficiency management of consumables: a product used to 100% of its capacity thanks to the sifter

= savings x 8

A dvantages of our solution

> 3-in-1 shovel

It allows you to spread, recover and recycle the absorbent material

> Large storage capacity

Big tank: 600 x 400 x 370 mm
Contains a 25 L refill of absorbent material

> Movable waste recovery tank

How to use

1

Storage and distribution

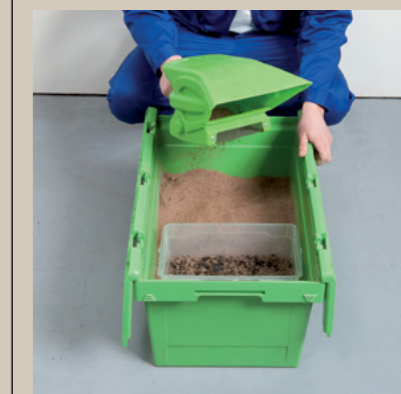

2

Absorbs

3

Recovers and recycles

Saturated lumps are retained on the top of the sieve and the recyclable powder falls back into the storage bin below for re-use. Spread Fibercan® generously – any powder which is not used can always be recovered.
