

MOBILE MULTI-TASK PARTS WASHERS

Solvent free – Pneumatic and electrical pump – Gravity X3

TECHNICAL DATA SHEET

1. DESCRIPTION

The mobile multi-task parts washer is a low pressure and perfectly ergonomic machine. Combined with the BLUELIQUID solution, it perfectly cleans all brake systems or mechanical parts without any solvent, dust or fiber projections.

The device needs to be plugged in until the indicator light is on which guarantees that the cleaning bath has reached **optimal temperature**. The device is then independent and can move within the workshop when **connected to the compressed air network**.

The multi-tasks mobile cleaner has got an integrated soaking tray (Hidden time work) and a 50 µm filtration to increase cleaning bath lifetime.

2. WORKING PRINCIPLE

- Mobile cleaner, low pressure, pneumatic, heated bath
- Non labeled EXO-CLEAN cleaning solution, heated at 38 °C
- **Filtration 50 µm** to maintain cleaning performance. Limited waste and maintenance.
- Heating process from 15 to 38 °C : 20l - approx. 15 min
- Cleaning with the **brush or soaking** (integrated tank)
- Drying system via a low pressure air gun
- Overheating security (reset feature)
- **Easy draining** : Draining plug with integrated pouring spout and handling
- Safe, not flammable, user and environment friendly

3. TECHNICAL FEATURES

Dimensions	82 x 53 x 105
Cleaning table	55 x 43 x 15, internal dimension
Empty weight	23 kg
Tank volume	40 l
Electrical supply	230 V - 2kW (9A)
Compressed air supply	10 bar maximum
Tools	Interchangeable brush, flat head air gun
Maximum load	30 kg
Soaking tray	Integrated at the bottom of the sink - 24 x 22 x 8 volume 4 l
Pump flow	Adjustable from 0 to 6 l/min + brush flow tap
Heating power	2 kW
Average electrical consumption	150 W
Component	HDPE

MAIN FEATURES

Filtration 50 µm

Soaking tray

Electromechanical kit easily removable - clip

Easy draining

USER'S BENEFITS

Cleaning efficiency

Ergonomic

Users' health

Solvent free eco-friendly

COMBINED PRODUCTS

1. EXO-CLEAN cleaning solution

2. Bag filter 50 µm

MOBILE MULTI-TASK PARTS WASHERS

Solvent free – Pneumatic and electrical pump – Gravity X3

TECHNICAL DATA SHEET

Filtration	Bag filter polypropylene 50 µm
Mobility	4 wheels polyurethane (2 with brake)
Sound level	45 dB(A) at 1 m
Options	- stainless steel sink extension

4. PACKING

Units/pallet	4	Customs code	8474100010
Pallet dimension	L 120 x l 100 x H 197 (cm)	Origin	France
Pallet weight	110 kg		

5. MACHINE SKETCH
