## MOBILE AND HEATED BRAKE WASHER

*It will substitute to solvent based parts washer and spray cans,  
for heavy trucks and vans applications.*

# MOBILE BRAKE WASHER

*100% Stainless steel. Heated and regulated, this brake washer is the perfect solution for the maintenance of your brake.*

## Health & Safety of the operators combined to protecting the environment

- Prevent solvent projection
- Encapsulate dust and fiber from the brake thanks to the cleaning solution
- This low pressure parts washer is recommended by numerous health and safety bodies
- No flash point and no COV emissions

## Practical & Efficient

- Electrical & pneumatic Mobile parts washer, you can adjust the height of work. The table can be for example displayed on the ground and the solution collected.
- The solution has been especially designed to imbue and remove dust brakes, any kind of oxydation and carbon. Solvent free, it uses the latest technologies with an aqueous solution.
- Heated at 38°C for an optimum efficiency .

## The + of the solution

- 30 to 40L of solution
- Pneumatic pump linked to the compressed air network (6bars)
- Heater, hot solution reaching 8/40 ° C within 10 minutes
- Adjustable flow, visual indicator of minimum level
- Working area : 880 x 535
- Possibility to adjust the height of work : from 1040mm to 1490mm. Possibility to also operate directly on the ground .
- Handy, mobile (4 wheels, 2 brakes) and 100% stainless steel.

## Technical Characteristics

Dimension h : 1150 mm, L : 600 mm, P : 1000 mm

Empty weight 35 Kg

Tank capacity 40 Liters

Pneumatic pump adjustable flow (from 2 to 6 bars)
