The heated brake washer is 100% stainless steel. Heated and regulated, this brake washer is the perfect solution for the maintenance of your brake.

This mobile brake washer avoids solvent projections and encapsulates dust and fibers from the brakes. Then protecting the operators' health.

#### ADVANTAGES

- Health & Safety
- Cleaning performance
- Environment

#### ADDITIONAL PRODCT

- Cleaning Solution

	Aerosol spray cans	Brake Washer
Consumption	 x 150	
Waste		
Reprocessing		

#### 2. PRINCIPLE OF OPERATION

- Mobile stainless steel & low pressure brake cleaner.
- Non hazardous cleaning solutions. CLP complies. Solution heated at 40 °C.
- 3 positions** : ground, standard, normal height
- Safe, not flammable, protect both the environment and the operators' health.

#### 3. TECHNICAL CHARACTERISTICS

Dimension	L 600 x l 930 (mm)
Height	Raised tray : H 1450 – Lowered tray : H 1150 – Tray on the ground : H 1000 (mm)
Empty Weight	35 kg
Tank Capacity	35 liters
Pneumatic pump	Adjustable flow (from 2 to 6 bars)
Heating	2 kW
Payload	30 kg
Composition	Stainless steel

#### 4. PACKING LIST

Unit per pallet	1	Custom code	8474100010
Pallet dimensions	L 99 x l 68 x H 120 (cm)	Country of origin	France
Growth weight	50 kg	ADR Regulation	No
DLU	Ø
